

Destiny:

The Rolltrailer type transport platform is used to transport heavy, bulky and oversized loads and container loads up to 130 tons.

Benefits

- optimized design,
- universal application,
- very good quality of weld joints and product finish,
- painting at the highest level (total coating thickness $\leq 120 \mu\text{m}$),
- tires from a reputable company,
- warranty and post-warranty service.

Technical characteristics

- maximum platform lifting capacity - 130 tons of evenly distributed self-supporting load or container load in positions 20" / 40",
- covered with tear plate secured with high-quality paints,
- collision-free ending ensuring safety during ascents and descents,
- series of mounting brackets for optimal and safe lifting of the platform from all sides.
